We know there are hundreds of establishments for you to choose as the backdrop for your wedding day. We appreciate your consideration of Flag Hill Winery & Distillery and understand that sometimes all the options can feel overwhelming.

We've been a part of more than 300 special days over the past decade and we've had the opportunity to learn a lot. You may be going through the process just once in your lifetime, while we have had the chance to walk with hundreds of couples and families through it. We're more than happy to share our experiences and knowledge with you as you begin to realize what you want your own special day to be !

We have come to understand that while every couple has unique needs, wishes, and plans for what their day will be, the goal is always the same; to create a day that exemplifies the role that family, friends and their partner have played and will play in their lives and express this through moments, actions, words, music and food that will be fondly remembered for years to come. With a genuine enjoyment of helping couples get through what can sometimes be a scary process, we hope to help couples and families enjoy the steps leading up to their wedding day. As much as we have become part of the Flag Hill family, so too, have many of our wedded couples - returning year after year to visit, dine and bring new family & friends to share an experience that they have come to cherish. I hope we can share that experience with you as well.
